Celebrating the 57th Foundation Day at HPL Additives!

Unveiling the Statue of Our Founding Father, Late Mr. Harcharan Singh at the HPL Additives Plant Site

Unlike every Founder's Day, this April 13th 2021, was a different day at HPL Additives. It was the first Founder's Day without our Founding Father, the Late Mr. Harcharan Singh. It was a moment to not just remember him but also celebrate his vision and achievements. To mark the occasion, the organisation unveiled a bronze statue in the memory of Late Mr. Singh at the HPL Additives plant premises in Faridabad. The statue was unveiled by Mrs. Singh in the presence of the entire top management and the employees. The top management paid their tribute and shared their fond memories of the special moments with him. The celebrations ended with a sumptuous lunch which was enjoyed by all, taking forward Mr. Singh's principle of sharing and caring.
