

Celebrating the National Safety Week Across All Plant Locations

Creating Awareness on the Importance of Safety and Ensuring Necessary Safety Measures at the Workplace

Safety has always been a core value of HPL Additives and the organisation leaves no stone unturned in ensuring utmost safety across its plant locations. To commemorate the 50th National Safety Day on March 4, 2021, the organisation decided to dedicate an entire week for the cause. The organisation planned a series of activities across its four plant locations – HPLAB, HPLAD, HPLAE and HPLAC from March 4-10, 2021. The same was observed to ensure safety at workplace and also instil within the employees the importance of safety. The activities conducted clearly showcased the organisation's commitment towards improving the working conditions, prevention of accidents and illness at the plant sites.
